

Let's go on a Bug Hunt!

Auburn Public Library | Friday April 20th 4:00pm – 5:00pm | Ages 3 and older

Join Library staff and Heather from *Hands on Nature* as we explore the unique characteristics and habitats of some of our fascinating local bugs, such as ladybugs, insects, worms, slugs, beetles, and caterpillars.

Children will gain respect and a better understanding and appreciation of the importance of nature's bugs and their connection and importance to our lives and our ecosystem.

Registration Required

Online at www.auburnlibrary.org
Visit the Library | Call the Library
Ask for Program Registration

Auburn Public Library

Merriam Room *and*
Library Grounds (weather permitting)

Funded by
the Auburn Cultural Council

Weather permitting, children will also explore the natural habitat of bugs outside on Library grounds.

All children will receive a magnifying glass to take home!
