

Auburn Public Library

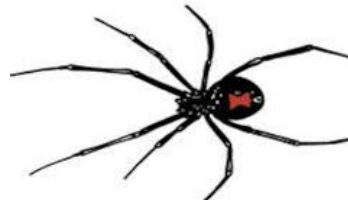

Let's Learn about Spiders!

Camel Spider

Tarantula

Black Widow Spider

Hobo Spider

Wolf Spider

This fun, educational program teaches children about the many different species of spiders and how they are useful to us. How do they spin their webs? How do they use all 8 legs! Will spiders hurt you? What kinds live around here?

We will read stories, see a short video clip, play a match-up spider game, and talk about spiders.

A simple, fun craft, making a colorful spider decoration will follow.

For those interested, we'll also go on a 'spider walk' in the Library backyard, at the end of the program.

*There are no real spiders. Children who are squeamish may not enjoy the program 😊

When

Thursday 10/14
3:30 – 4 / 4:15pm

Registration Required
Ages 3 – 6 only please

**Please respect the age parameters so that we can
balance our resources and materials for all age groups**

Where

Merriam Room

*The back of the Merriam Room will be set up for parents, including toys, for children too young for the program.
