Resume Writing Review

Please note this is not a technical skills workshop. You do not need a computer or other device. The workshop is designed to help you understand resume writing and build competencies to design a professional resume.

Gary will discuss resume writing in general, including, but not limited to applicant tracking systems, keyword search techniques, content review, formatting choices and a variety of best practices.

He will also discuss both chronological and functional resume styles.

NOTE: Registered participants are encouraged to email their existing resume for confidential one-on-one analysis. You will receive Gary's contact information once you register for the course.

Workshop Delivery

This is a remote access workshop. Interested patrons must register with the Library using the link below. The workshop will also be streamed at the Library; patrons can choose to view from home or in the Merriam Room.

You will receive the Zoom link to the workshop one day before the workshop.
